## HOW DO YOU WANT TO RECEIVE YOUR PACKAGE ?

Here are the options to choose from :

1. **SPECIAL STANDARD (BOOK RATE).** Please send \$2.00 for the first item and \$.75 cents for each additional item along with insurance from the table below; for shipping purposes, count five PR's as one item. This is how most orders will be shipped unless another choice is requested and prepaid. This option takes anywhere from 5 to 30 days for your package to arrive (it can be extremely slow).
2. **PRIORITY MAIL.** Please send \$3.20 for the first item and \$1.00 for each additional item along with insurance from the table below; as mentioned above, five PR's equal one item for shipping charges. It will take 2 to 10 days for your package to arrive as the post office will not guarantee delivery within three days.

**NOTE:** Shipping your order may cost more or less than the estimates above depending upon weight. **You will be charged the actual shipping amount.** Any additional charges will be billed; any prepaid overages will be credited to your account. Insured packages can only be traced after 30 days.

*\*\* Any order of \$25 or more for merchandise keeps you on our mailing list for one entire year. \*\**

**PACKING & HANDLING:** Please add the following charges for the number of items you order:

1 - 5.....	\$ .50 per item
6 - 10.....	\$ 3.00 Total
11 - 20.....	\$ 5.00 Total
21 - 30.....	\$ 6.00 Total
31 - 40.....	\$ 8.00 Total
41 - 50.....	\$10.00 Total
51 or more.....	\$12.00 Total

This helps cover the cost of boxes, strapping tape, packing for the catalogues, labels, etc.  
The charges listed above are, in every case, lower than the per lot fees charged in mail bid sales.

**INSURANCE:** We insure all packages. Please add charges from the table below:

<u>POST OFFICE INSURANCE</u>	
\$ 0.01 to \$ 50 .....	\$0.85
50.01 to 100 .....	1.80
100.01 to 200 .....	2.75
200.01 to 300 .....	3.70
300.01 to 400 .....	4.65
400.01 to 500 .....	5.60
500.01 to 600 .....	6.55

Add \$0.95 cents per additional \$100 of value up to \$5,000.

## **SPECIAL BONUS !**

You will receive a 10% DISCOUNT on all orders totaling \$100 or more in merchandise and received before July 29, 2000.

Does not apply to shipping and handling.

(We give discounts, the post office doesn't.)

\* Prices are subject to change without notice. Supply is limited to stock on hand.

## GREETINGS !

We welcome you to another tremendous offering of numismatic literature with emphasis on American auction catalogues.

In case you didn't know, there was another record price established for a U.S. auction catalogue at the recently concluded Bass IV sale conducted by our good friend, George Kolbe. Once again, an S.H. Chapman catalogue is the current recipient of the highest price paid at auction. An extremely nice plated copy of the 1923 Henderson sale, Lot #173, brought a hammer price of \$12,000. This eclipses the "old" record of \$9,500 paid for the 1912 George Earle bid book just 12 months ago.

What does this mean? It means the literature business is alive and well with knowledgeable, dedicated participants. There is competition at the five figure level which is similar overall to the \$1 million barrier in coins. It also means that the scarce material will enjoy an increased demand whenever it becomes available. But, hey, as people interested in numismatics we should know this already. Every indication points to a very positive and active market for a long time.

Plus, another significant evolutionary event has come to pass. The numismatic catalogue compact disc has now become a reality. Heritage released the first American CD for the May 2000 Central States sale. Several years ago I wrote that there will be a time coming in the near future when no more auction catalogues will be printed. I now predict it will take less than 10 years before this form of catalogue CD becomes the accepted norm in the entire marketplace. Anyone care to make some friendly wagers payable at the 2010 ANA convention?

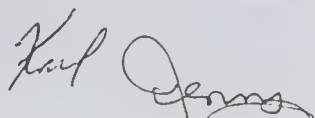

Speaking of ANA conventions, we will be attending the show in Philadelphia this August and hope to meet with many of our friends for the first time.

Our mailing list is continuously updated. Any order of at least \$25 for merchandise keeps you in our active file for one year. People no longer receive a free list if they do not purchase anything due to the costs involved in printing and mailing.

Please look over this large selection and get your order in ASAP. We have over 12,000 catalogues in stock and I'll let you know right now that prices will not be going down!

As always, Jenny and I wish to "THANK YOU" for your business. We are here to help you with this fascinating and enjoyable part of numismatics.

Best wishes,

Karl & Jenny Moulton

## THE CATALOGUES OF Q. DAVID BOWERS

Bowers & Ruddy Galleries, in Hollywood, California, named their auction division the American Auction Association; the first eleven sales bear this name. A strong beginning with the Armand Champa Sale in 1972 led to success after success.

These are among the finest catalogues ever created regarding American Numismatics. The Bowers catalogues are indeed the premier sales by which all others are judged. IF YOU DON'T HAVE THEM, YOU SHOULD!

### **SAMUEL H. CHAPMAN** (U.S., Foreign, Ancients)

This short run of catalogues (28) from 1907 to 1924 is one of the most challenging series to complete. This is evidenced by the fact that \$9,000 was paid for a plated 1920 Hunter sale in the early 1980's. This record was only broken a year ago when the Henry Chapman bid-book of the 1912 George Earle sale brought \$9,500. As of June 2000 a new record of \$12,000 was established for a plated 1923 Henderson sale. All S.H. Chapman catalogues are legitimate rarities in American numismatics whether plated or not.

## HERITAGE "CATALOGDISK"

May 4, 2000

Central States Numismatic Society

Although released without much fanfare, it will no doubt revolutionize the American numismatic marketplace. Believe it or not, these are now out of print. With this in mind, and realizing that they are destined to become significant collectibles, we offer a mint CD for.....\$15.

They contain an extensive run of U.S. Gold coins, Territorial Gold, and a hoard of 1856 Flying Eagle Cents. All the major rarities are here. The catalogues are well illustrated and belong in every numismatic library. If you were to purchase them singly with copies of PR's, they would cost you \$23. AMERICAN STATE PAPERS	<b>Finance: Vol. IV, 1817-1823, &amp; Vol. V, 1824-1828.</b> 1077 pages and 1143 pages respectively. Marbled boards detached on both volumes. Spines deteriorating and cracked in the middle. All pages complete and fresh with no foxing. These extremely scarce volumes provide detailed documentation about early United States financial activities. This includes Mint Director Reports from the respective years and communications from the Treasury Department to Congress. A vast amount of information on commerce is interleaved with documents on public monies, assays of foreign coins, deposits in banks, and other numismatically interesting historical information. Comes with a generous supply of old dust. These heavy volumes are seldom offered. Both for.....	<b>375.</b>

Breen's entire concept of early proof coinage prior to the mid-1830's is based on the physical examination of coins he has labeled as proof. Most of his rhetoric is unsubstantiated and, as of now, there has yet to be one shred of evidence which documents any early Proof coinage from the U.S. Mint. Based on all sources, the coins outlined in this compilation remain nothing more than prooflike business strikes until official documentation confirms otherwise. **COIN DEALER NEWSLETTER (GRAY SHEET)**

An impressive run of over 800 issues  
from 1963 to 1989!

This group starts with the November 8, 1963, issue; which, by the way, was printed on buff colored paper. It continues with over 80 early issues from 1964 to 1969. Then this lot skips to the August, 1975 ANA issue, from where it continues nearly complete through September of 1989. These long over-looked weekly periodicals provide a tremendously important research tool to chart, not only prices, but true rarity in the top grades. As a bonus, we will include over 75 different Monthly Summaries from September, 1976 through September, 1988. These contain many specialized articles about the different series in U.S. numismatics. First call gets it for... \$295.

**COIN WORLD - 1964.** All 52 issues for the complete year of 1964 -- perhaps the most interesting numismatic year of the century..... \$225.

**CORY GILLILLAND**

Sylloge of the United States Holdings  
in the National Numismatic Collection  
of the Smithsonian Institution  
Gold Coins 1785 - 1834

A fascinating pictorial guide to the United States  
Gold coins housed in the Smithsonian.

Page after page of clear, black & white plates display the multitude of rarities. There are two 1787 Brasher Doubloons and both 1822 Half Eagles are plated, along with one of the three traced 1826 Far 13<sup>th</sup> Star variety Half Eagles. Important background pedigree information is provided as well. There are also several pages of biographies of important numismatists from the past. For most of us this book is much cheaper than visiting the Smithsonian itself.

This book sold new for \$60 and is now out of print.

We have one in new condition  
available at.....\$95.

# 19TH CENTURY AUCTION CATALOGUES

\*\*\*\*\*

These sales represent the core of American numismatics. The first coin auction of note was the Lewis Roper Sale in 1851. By the end of the 1850's many collectors were active from Philadelphia to Boston. The big market was in Proof sets, thanks to a friendly mint director who was happy to oblige any and all orders – including himself. These early collectors sold their duplicates, and acquired missing pieces to help fill in their collections by bidding in auction sales, just like now.

Names like McCoy, Mickley, Cohen, Jenks, Stickney, Garrett, etc. are remembered today; and any coins accurately pedigreed are highly prized items indeed. Interestingly, the collector of this time did not focus on top quality type coins. His main interest was apt to be U.S. & World Medals, George Washington items, Early Copper, Tokens, Ancients, and Colonials.

Dealers like Ed Cogan, W.E. Woodward, William Strobridge, A.B. Sage, Ebenezer Mason, John Haseltine, Ed Frossard, Sigismund Harzfeld, the Chapman brothers, H.P. Smith, H.G. Sampson, David Proskey, George Massamore, and Charles Steigerwalt all presented many fine auction sales. At times there were more than 60 combined sales by the dealers listed above in a single year. That's more than one sale per week! Public disputes such as Cogan vs Mason, Frossard vs Woodward, Harzfeld vs the U.S. Mint, and virtually everyone vs the Chapman's cataloguing the Bushnell sale, all added spicy ingredients to the marketplace. It was truly an interesting time in American numismatics.

The record price paid for any 19<sup>th</sup> century catalogue is \$9,000. That was the hammer price in December 1998 for Charles Bushnell's priced and named copy of the Lewis Roper sale. Since auction catalogues represent the base reference for any numismatic research, the very limited supply will dictate an increased value and desirability as time goes on.

We offer the finest selection of 19<sup>th</sup> century sales available in the country today at fixed prices. There are over 150 different sales available in this list. Check the listings carefully and favor us with your choices.

Collecting these early sales is challenging, but not really expensive. It's an exciting adventure trying to complete a set from any one of these pioneer dealers. This writer has been enjoying this form of bibliomania for several years now.

The following selection provides you with an opportunity to purchase a 100+ year old coin sale at a price that is reasonable, if not downright cheap, as we head into the 21<sup>st</sup> century. You, too, can join in the fun. We will be happy to offer opinions, insights, and answers to any questions that come our way.

All catalogues are in very good to fine condition. Notable defects are described. Due to their age and the quality of paper used, all are quite fragile. HWP indicates Hand-Written Prices.

The Chapman brothers amicably dissolved their partnership in 1906. Both Henry and Samuel continued cataloguing and attended each others sales. One of the more notable photographs of the Chapmans was taken at the 1912 George Earle sale conducted by Henry Chapman where they are seen flanking John Haseltine, their first boss and long-time friend. A large, 2-page print of it graces the inside cover of John Adams' U.S. Numismatic Literature Vol. I.  
Please see their separate listings in the 20<sup>th</sup> century section.

All are fully useable copies and we have tried to accurately note any of these faults.

# A BRIEF BACKGROUND OF PRINTED PRICES REALIZED LISTS

What is believed to be the very first printed prices realized list ever issued in this country was for the Ed Cogan sale of October 18 & 19, 1860. A copy of this four-page, 801 lot list recently sold for over \$400 at public auction as lot #407 in the June 5, 1999, Harry Bass II sale by George Kolbe. That makes it more valuable than an uncirculated common date \$20 gold piece at today's market levels! Besides, this list is actually much scarcer with fewer than a dozen copies accounted for. It originally sold for 30 cents and was issued as a supplement by early New York numismatist Joseph N.T. Levick.

It was coin dealer Ed Cogan who, in 1869, presented the first plated U.S. coin auction catalogue (the MacKenzie collection). Earlier Cogan was responsible for the first coin mail bid sale in 1858. He also issued the first priced "post sale" catalogue in December of 1859. This is why he is popularly referred to as "the father of coin collecting in America".

For the most part, pricing was done by hand inside the catalogues during the 19<sup>th</sup> century, making printed prices realized lists very scarce. The actual rarity of early printed prices realized lists is, at present, undetermined. There are a few still floating around, but no census has ever been taken.

There was a short series of four printed prices realized lists issued by the New England Numismatic and Archaeological Society in the early 1870's. This was continued in the 1880's with a few other cataloguers issuing their own lists. **As a general rule, original printed prices realized lists prior to 1900 are the rarest and most over-looked numismatic collectible**, based on actual production and current availability. They have virtually been ignored for decades. It should be remembered there were no published price guides or "Trends" at that point in time.

The cataloguers' main objective was to issue the sale catalogues and conduct the sale. After the sale had taken place, they figured the "important buyers" were in attendance and had priced their own copies. Issuing a printed price list was a secondary consideration. The normal charge was \$1 to cover the printing and postage, which was quite a substantial sum then. Apparently, very few collectors sent their dollar in, judging from the amount extant.

Some earlier dealers such as the Chapmans, Max Mehl, Abe Kosoff, Abner Kreisberg, and Paramount International Coin Corp. printed a good amount of prices realized lists. Mehl printed some on thick, glossy paper where the extra-wide margins took up more space than the prices. It was all part of his promotional efforts to successfully sell coins through the mail bid format. Not one of his 116 sales was ever a public auction.

A careful examination of previous literature mail bid sales will reveal the significant lack of printed prices realized lists offered with auction catalogues. The catalogues themselves are sometimes difficult to obtain. An original PR is part of the sale and since it is scarcer, it has a much greater potential as a collectible.

Even today it is sometimes difficult to get an original printed copy. The modern format is to post them on the company's web page, saving the costs involved with printing and mailing. In the future the auction catalogues, prices realized, and most coin business in general, will be conducted electronically. This means even fewer "hard copies" will be available for reference.

We have the largest selection of original printed prices realized lists available; and we are genuinely interested in purchasing anything that is not contained in this list. As you can see, most of the time we can offer only photocopies. Even today, we normally go through ten copies of any specific sale before a single "PR" shows up. That's because the originals are that scarce!

Check this list over carefully. There are lots of opportunities to "complete" your catalogue reference collection by adding the very important prices realized list for each sale.

# PRICES REALIZED LISTS AVAILABLE

This is a list of all the prices realized lists we have on file. No catalogues are included in this section, though they can be found elsewhere in this fixed price list. After a listing, "C.... or O...." indicates either a photocopy (C) or an original (O) prices realized list is available and at what price. An original printed Prices Realized list is the most overlooked item in numismatics. All originals are subject to prior sale. Supply is limited to stock on hand, and prices are subject to change without notice.

# **THE NUMISMATIC AUCTION CATALOGUE CD**

The development of the auction catalogue CD causes far-reaching repercussions for the existing numismatic literature market. Everyone with a printed library will benefit enormously from just owning the older catalogues and books both financially when it comes time to sell, and availability for research purposes. In the future it can reasonably be expected that much of the numismatic literature will be appearing in CD format only due to the high printing and distribution costs. With fewer catalogues and books being printed it will dramatically alter the ways of numismatic commerce, how research is conducted, and how much information about numismatics is readily available.

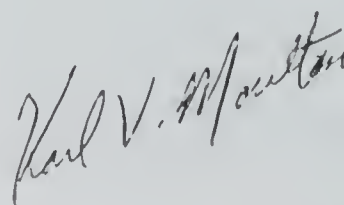

Generally speaking, the cost of the printed materials will be significantly higher since hard copies of catalogues will no longer be printed (unless an individual wishes to create one), and the future numismatist will find it much more difficult to obtain some of the greatest sales of the past.

There are nearly 150 years of tradition in American numismatics available through its printed literature. During the changeover from printed to electronic format, much of it will be lost to future numismatists as they will come to know only what has been made available electronically.

Unless someone, or some organization, makes all 15,000+ American auction catalogues and 1,000+ reference books available in an electronic format, which seems to be completely out of the realm of possibility at this point, the demand for the printed material made prior to the year 2000 will be enormous in the not-too-distant future.

The last 30 years have seen the creation of the finest numismatic auction catalogues ever. These catalogues contain many plates (both black & white and color), excellent background research done by the cataloguers, and a tremendous selection of top quality coins. Right now many people take these modern catalogues for granted, but the time is fast approaching when you had better complete your sets before the supply dries up.

Enough said.

## KARL MOULTON

Mark VanWinkle, Chief Cataloguer  
Heritage Numismatic Auctions, Inc.  
100 Highland Park Village #200  
Dallas, TX 75205-2788

May 4, 2000

Dear Mark,

CONGRATULATIONS on being the very first numismatic company to issue  
a numismatic auction catalogue CD-ROM. The May 2000 Central States Numismatic Society sale  
will forever be known as a significant milestone in numismatic literature.

Yes, a catalogue CD is still literature. It's just viewed in an electronic format rather  
than being printed on paper as all coin catalogues have been since the late 1850's.

This ranks in importance right alongside the 1869 MacKenzie sale by Edward Cogan,  
which was the very first plated catalogue in this country. Now, having plates for every "single  
coin" lot contained on the new CD confidently opens the door for a whole new age in American  
numismatics.

To have this happen at the beginning of a new century is well timed. It will be most  
interesting for future numismatists to look back every 100 years and see the changes that have  
taken place in the "can't-stop-it-if-you-wanted-to" electronic marketplace.

Everyone at Heritage Numismatic Auctions, Inc. should be justifiably proud!

Sincerely,

Karl V. Moulton
